Property Identification

Agawam Police Chief Kenneth Grady is shown above (center) getting the lowdown on "Property ID" from Realtors Richard S. Thomas, on right, chairman of the "Make American Better Program" and Leon S. Simons, committee member.

This Home Security Program sponsored by the Greater Springfield Board of Realtors in cooperation with Local Police Departments throughout the Area hopefully will help to protect your home from burglary by putting the thief out of business. The idea is to discourage theft by means of identification of valuables and warning potential thieves by use of window stickers that this action has been taken by you. Such is accomplished by use of etching one's operator license or Social Security number on portable items and listing these items on a form to be submitted to your Police Department.

Etching pens and instructions are available at all realtor offices in Agawam and all other realtor offices in Greater Springfield area.

Mrs. Snyder Seeks Re-election To School Committee Seat

Venetta (Montagna) Snyder of 10 Strawberry Hill Rd., Feeding Hills, has announced her candidacy for re-election to a full term on the school committee.

She was recently appointed to serve on a committee to study the needs for future school sites. Due to the rapid increase in resident construction this is a constant and pressing concern of the committee.

"In the past six months that I have served on the School Board," Mrs. Snyder stated, "I am constantly aware of the significant value, members of this board

must contribute to their townspeople." She noted the change of Town Government and the implementation of the new charter noting that several vital and important areas in the school system will be under the direction of the Town Manager. These areas are the maintenance and repair of buildings and related purchasing; and the maintenance and health personnel.

"For the past six months," Mrs. Snyder related, "the school committee has acted in a very positive and progressive manner to help insure an effective, efficient school system."

Words To Live By

Mr. John W. Gardner, former Secretary of Health, Education and Welfare, writing in The Reader's Digest, asks, "Suppose that you could offer one word of advice to a young person living in the year 2000. One word! What would it be?" Mr. Gardner has posed this question to many friends over the past several years. He found the most frequently mentioned word was "Live." Live ranked among the three words most often mentioned for first place. The other two words were "Love" and "Learn."

After these first three words, Mr. Gardner found that agreement breaks down for choice of a fourth, a fifth and so on. However, after much searching and meditating, he arrived at what he calls, "Seven Words to Live By." He placed them in the following order: "Live, love, learn, think, give, laugh, try." As a final observation he asked: "Can you pack better advice into seven words?"

Double Burden

The statistics say that the federal government is now a larger dispenser of fringe benefits than private industry. In 1970, fringe benefits in private industry amounted to 26.6 percent of basic wages and salaries while the figure for the federal government was 27.8 percent. This contrasted with the last survey made by the U. S. Labor Department in 1968, when private employer expenditures came to 25.1 percent and the federal government's were 24.3 percent.

The image of government as a progressive employer compared to private enterprise should be tempered by the fact that private enterprise carries a double burden. It must pay for its own fringe benefits as well as put up the taxes that go to support the fringe benefits of those who work for government. It is hardly a fair comparison.

Grassroots Opinions

SAN MARINO, CALIF., TRIBUNE: "The main cause of inflation over the years has been increased government spending. It may have sounded 'businesslike' to make each piece of mail pay its way, but the government seems to have forgotten that all of its mail, including the military as well the frank privilege of the politicians is carried without charge. Does it really want each piece to pay its own way, or is it trying to soak the rest of us for all the free-loading federal mail? The post office used to collect millions of dollars from magazines such as Look, but one after another they are dropping out of business. The government wanted to collect twice as much from Look. Instead it is going to get nothing. A lot of newspapers will be forced out of business unless government relents on its unprecedented postal hike."

LAKE ORION, MICH., REVIEW: "Big Shot' politicians are tapping us for more taxes! It's either for more salary, more fringe benefits, or more help! To top it all off, now they want us to pick up the tab for political expenses. I've heard of everything now! With the entire country in the midst of the Presidential 'freeze', evidently these politicians can't wait for the 'Thaw.' I think it's about time we taxpayers call a halt to these 'Big Spenders' who can dream up more ways of spending our money than a four-year-old at Christmas time. Why can't they do something concrete about saving tax dollars, or at least spending them where they are needed?....I think it is time taxpayers and concerned citizens consider replacing them with 'thinking individuals', rather than just 'puppets'! From our federal system down to the local level, the time is ripe to replace these parasites who are more interested in party and votes than they are in the poor taxpayer who has to pick up the tab."

cient and economic transition by establishing new administrative business policies and practices."

The next two years will be a critical period for Agawam's educational system and a very important period for all the townspeople.

"The opening of the new Jr. High School will provide for significant changes in the educational programs of the school system," she said. "Not only will this be the first school facility with planned year-round use, but it can provide the opportunity for students at an earlier age a more comprehensive attitude towards study through curriculum revision; greater number and variety of elective courses; expanded Work Study Program and expanded programs for the exceptional child."

"I am seeking re-election to the Agawam School Board so that I may continue to apply my utmost efforts to provide the best education for our youth at the best cost factor to all citizens."

Mrs. Snyder is presently serving as vice chairman to the New School Building Committee and an elected Town Meeting member. She has served on the Agawam High School Advisory Council as representative of Agawam P.T.A. Council.

She is a homeowner and lifelong resident of Agawam, married to Brady D. Snyder and the mother of three children all attending the Agawam school system.

Theodorowicz attended the public schools there. He is a graduate of Springfield College and earned his Masters Degree in Education at that institution.

During the 1968 high school evaluation by the New England Association of Colleges and Secondary Schools, Theodorowicz was General Chairman of the evaluating committee. It was at that time that Agawam High School received a full ten-year accreditation status.

The new principal is currently a member of the Board of Management of the Agawam YMCA. He is a member of the National Association of Secondary School Principals, the Massachusetts Secondary School Principals Association, the National Education Association and state, county, and local educational associations.

He is married to the former Martha Boynton; and they reside with their four children at 44 Silver Lake Dr., Agawam.

SPORTSMEN'S CORNER

By BILL CHIBA

The bill for an increase in the hunting and fishing licenses was passed by the committee who heard the bill recently. In 1973, a sporting license will cost you sports \$13.50. A hunting and

fishing license will go for \$8.25 each. Fifteen through 17-year-olds will pay \$6.25.

Trappers were rapped for an increase to \$11.25. However, they do receive a return on their investment with the sale of their furs. Young trappers 12-17 will pay \$6.25.

Non-resident big game will be \$35.25; small game \$20.25. Shooting preserves will pay \$16.25 per person. Non-resident fishing will be \$14.25 for a seasonal and only \$7.25 for seven days.

The archer was hit right between the eyes with a \$5.10 fee for their fun. It used to be \$1.10. When you send in your application for an antlerless deer permit you will have to include 50 cents to cover administrative purposes.

Friday afternoon after work, I was fishing the same area with a mooselook wobbler when a fish hit and almost tore the rod off the boat. I grabbed the rod . . . kicked the motor into neutral . . . proceeded to play the large fish. He was stubborn and did his

Bay State Fuel 'A' Ends Season as Co-Champs

The 1971-72 hockey season for the Bay State Fuel "A" team ended in April with Bay State Fuel tying for co-champ with the Van Horn Ponies. Each team won one game and tied one game but were denied the privilege of playing the deciding game for the championship.

fighting down deep. Suddenly the line went limp; I went limp right along with the line. The 6 lb. leader had parted at the swivel and the fish took off with my mooselook in his jaw.

Earlier in the week, a fisherman had taken two large perch in the same area. The 15 inch perch weighed 2½ lbs. and the 14 inch one 2 lbs. These are the largest perch I can recall ever coming out of the Congomond Lakes.

Saturday morning Hank Daglio of Agawam picked me up with his new rig (14-foot Starcraft with a new 9½ Evinrude motor) and we hit Lake Gardfield. Had to put the boat in at Kinney Cove Marina. The public ramp is blocked off and in terrible condition. I hope that when the dam is finished the Access Board will build a decent ramp and parking facilities for the fishermen.

We hadn't traveled 50 feet from the boat ramp and Hank had on a nice plump brookie. His orange spotted mooselook wobbler did the trick.

By 12 noon we had our limit of 12 trout, 10 rainbows and 2 brookies. We took the trout on mooselooks and I took a few on my Cardinale fly.

The fish are starting to hit regularly now. You have to fish hard for them, but they are there and will take an offering.

All players were outstanding. Centers were Al Hardina, John Couture, Bobby Ould and Bryan Foote; wings included Chris Petrucci, Dave Bruso, Bobby Taupier, Jimmy Shea, Billy DiSisto, Jimmy Fydenkevez, Peter Bell and John Colby.

The four defensive positions were played by Jimmy Dow, Paul Couture, Dick Bruso and Steve

Palazzi. Last but not least was Steve Oulette as goalie, proving himself a great goalie as most games were shutouts.

Leading scorer of the Greater Springfield Hockey Association, Blunt Park League was earned by Steve Palazzi.

The team was led to victory by coaches Dick Bruso and Norm Couture.

Heyerdahl's Film "Ra Expeditions" Opens Here Soon

"The Ra Expeditions," award-winning film account of Thor Heyerdahl's epic voyages in a paper boat from Africa to the Americas opens soon in this area for a limited, exclusive run.

The book version of "The Ra Expeditions" is currently high on the best-seller lists.

Heyerdahl, famous for his Kon-Tiki and Aku-Aku adventures, made the voyages with eight other brave men, a monkey and a duck to prove that a boat made only of papyrus reeds and rope—a copy of those used thousands of years ago—could have carried Egyptians across the Atlantic to South America many centuries before Columbus.

His first attempt, through howling storms and deadly calms, failed only 500 miles short of landfall when the boat's stern section broke up and sank. His second attempt succeeded dramatically. Ra II sailed 3,270 miles in 57 days from Safi, Morocco to Barbados in the West Indies.

Movie cameraman for the voyage was Kei Ohara of Japan, who shot from every conceivable angle aboard the craft as well as from a rubber dinghy. He managed to have his camera focused on every exciting detail of the voyage—raging storms, the crisis of a broken steering oar, ship-

board shenanigans, sharks cruising hungrily around the tiny craft, near disaster, then final triumph.

"The Ra Expeditions" has been called "the most incredible adventure film of all time." It received warm acclaim at the 1971 MIFED International Film Festival in Milan, Italy, where it was a winner in the documentary category.

Rated G, "The Ra Expeditions" is the most exciting family entertainment to come this way in a long time.

The 105-minute film was produced and directed by Lennart Elrenborg and distributed by Interwest Film Corp.

Mineral Exhibit At Center Library

An exhibit of minerals from the collection of Mr. Andrew Toussaint of Agawam is being presented at the Agawam Center Library. The minerals will be on view through the month of May and are part of a new program of exhibits to be presented monthly at the Center Library.

Mrs. Sylvia R. Deliso, chairman, would like to be contacted by anyone who has a collection which would be suitable for exhibit. Of particular interest for summer exhibiting would be various items collected by children since the library is used extensively during the summer by vacationing students.

Future exhibits will feature gravestone rubbings, photography, and antiques. Anyone wishing to participate in the program may also contact the Librarian, Miss Shirley Richard.
